## Period S Retention

**Reporting Window** – Approximately July through August, depending on dates provided by ODE as to when Collection Request opens

### **Record Types to Include** – FN

All City, Local, Exempted Village, Community and JVSD districts are required to report the Retained Status element for the following students:

1. Any student enrolled at the end of the 17/18 school year with a Retained Status element other than '\*' at the end of the school year. This includes students who may have withdrawn from your district after the end of school and prior to July 1.
2. Any student enrolled in 18/19 with a Retained Status element other than '\*' at the beginning of the 18/19 school year. This includes students withdrawn on or after 7/1 and before the first day of school.

# Task 1 – Update the Retained Status Field

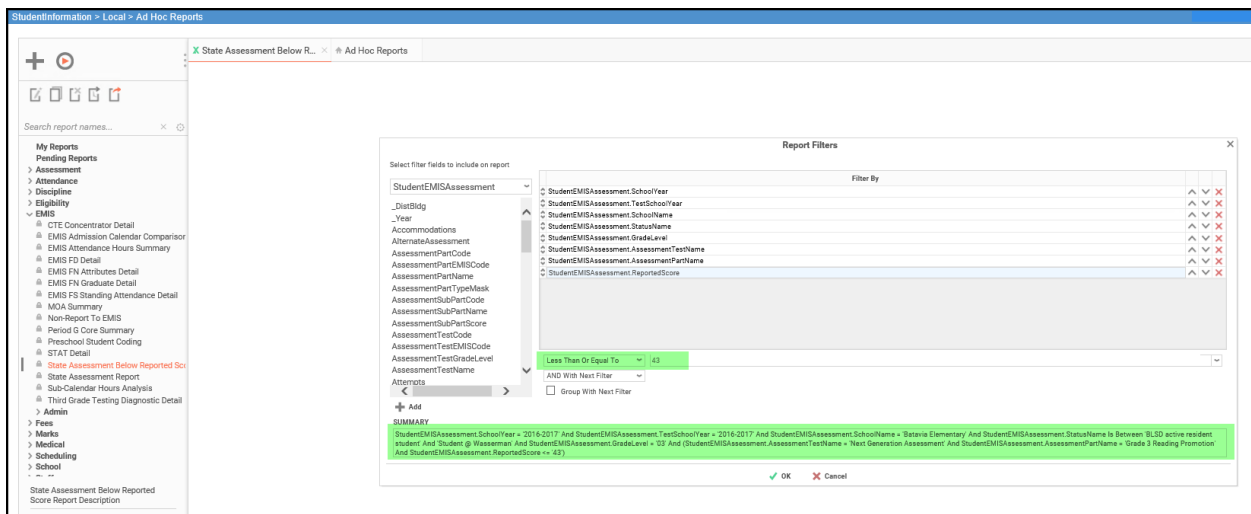

**NOTE:** Prior to making updates to the FN Attributes tab as noted below, determine whether Fall Initialization has been run for your district or if it still needs to be run. (Not all districts choose to have Fall Initialization run.) If the retention updates are made

prior to Fall Initialization being run, the  **Exclude FN Records from Fall Initialization Updates** will need to be checked so that the values aren't updated during Fall Initialization. If the box is not checked and the updates are made prior to Fall Initialization, the Retained Status will update to '\*' and the EMIS Grade Next Year will revert to the value on the previous school year's FN Attributes tab during the Fall Initialization process. The Retention reporting period is typically a short window, so it is best to make these updates as soon as possible.

Navigate to the FN-Attributes tab of the Student Profile for any student who should be reported with a Retained Status other than

and update the value to the option that best describes the student's retention status as of the first day of the current school year. For students not retained on the first day of school, but after a period of time the student moves back to the prior grade level, the retention status would not be updated.

Any student reported in FY18 as Grade 3 with a Next Generation Assessment Grade 3 Reading SubScore (promotion score) below 44 must have a retained reason of A, D-M or 5. To assist in locating this subset of Grade 3 students, the AdHoc report **State Assessment Below Reported Score** (located in the Ad Hoc EMIS Folder), can be used. Note: See the Summary section at the bottom to see the selections made for the various filters.

Depending on the value selected for Retained Status, the Student's State Equivalent Grade (FD Attributes) and EMIS Grade Next Year (FN Attributes) may also need to be updated.

## Task 2 – Period S Retention Transfer

Once you have completed the data updates, transfer your data to the Data Collector. All FN fields will be included in the extract sent to ODE, and they will ignore any fields not required for this transfer.

**Note:** If a student who was retained at the end of the school year, attended your district through the end of the school year in 17/18, but withdrew on or before June 30, your district is responsible for reporting the retained status of that student in the FY19S Retention Collection. Students who meet this criteria can be reported using the Flat File Editor (FFE).

Navigate to the Student Reporting Collection (S) menu and transfer the Student Attributes – No Date (FN) records.

## Task 3 – Run the Collection

Before starting a collection, make sure the most recent version of the manifest has been downloaded.

1. While logged into the Data Collector, click on the **Collection Requests** tab.
2. Begin the collection.
3. Mark the Data Sources section.

All Files data sources		
Data Sources	Availability	Collection Status
<input checked="" type="checkbox"/> BA-Files	<input checked="" type="checkbox"/> Ready	Not Started

4. Once the collection has been completed, proceed to the Prepare step.
5. Once the Prepare has completed, review the Level 1 Validation errors.
6. Return to StudentInformation to make corrections and updates resolving the Level 1 Validation errors.
7. After creating a new transfer file in StudentInformation and submitting it to the Data Collector, begin a new collection.
8. If satisfied with the results, go ahead and submit the collection to ODE for processing.
9. Once the collection has been processed by ODE, you should receive Level 2 Report errors. Review the Level 2 Report errors and make corrections in StudentInformation and repeat the process if needed.

**REMINDER!**

Don't forget – once you correct errors and rerun any required updates in StudentInformation, a new transfer to the Data Collector must be performed. Once the transfer is complete, rerun your collection.
