

Downloading and Installing Slashed 0 True Type Font

To download, click 'Slashed 0 Font Download' on the Parent Access Documentation area of the ProgressBook website (http://www.mveca.org/ProgressBook/parent_access_documentation.htm)

When prompted, click Save

Click Desktop to save the file to your desktop; click Save

You should now see the Slash_0 icon on your desktop

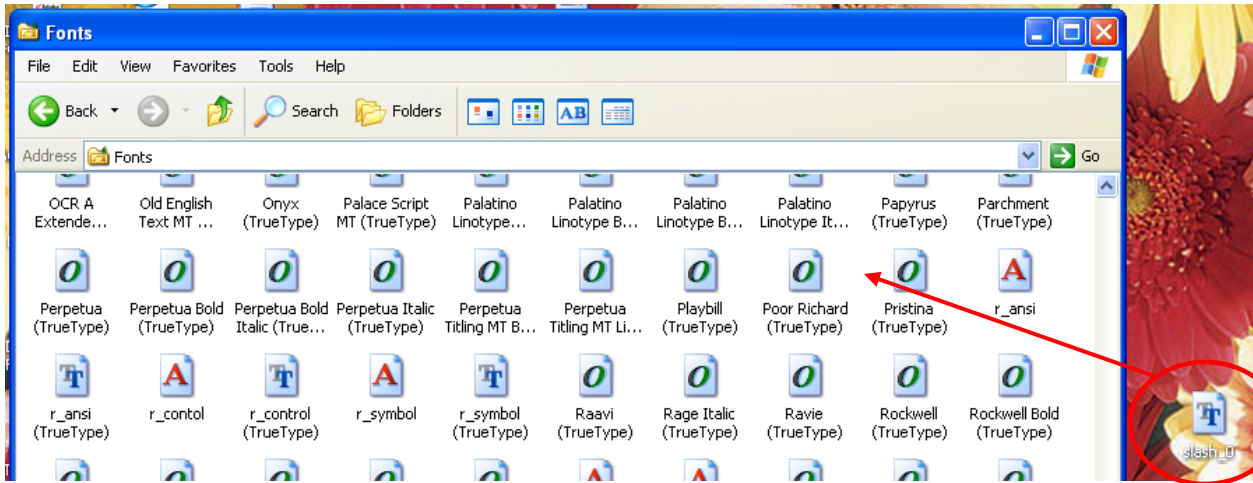

To install the font, click Start – Control Panel

Double click the Fonts folder

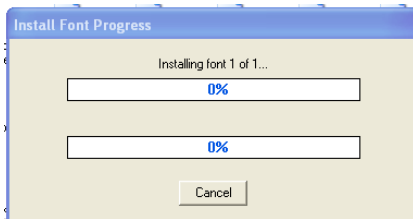

Click the Maximize/Restore Down button in the upper right-hand portion of your screen to view font window and desktop simultaneously

Left click the Slash_0 icon, and drag the font into the Fonts folder

You will see a very brief dialog box alerting you that the font is being installed

Once installed, you may close the Fonts folder

To verify the font is available, open Microsoft Word, click the arrow next to Fonts and scroll to Slashed Zero Arial
