Fun Facts on SPAM

- SPAM messages are retained for 7 days
 - Current number retained – 663,000
- Virus Messages are retained for 7 days
 - Current number retained – 1270
- Approximately 360,000 messages processed daily

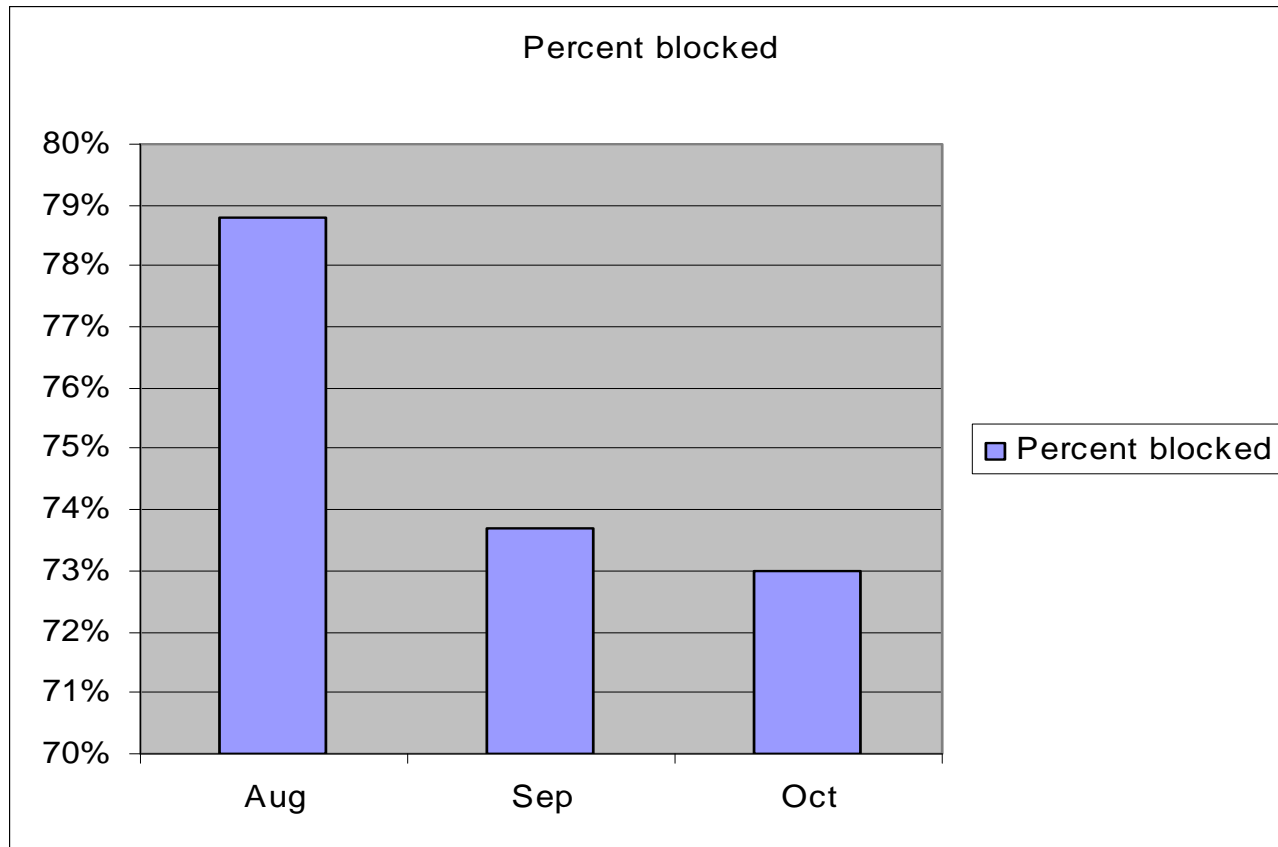

Email Increasing

Amount of data increasing

Spam Blocking

MVECA

Miami Valley Educational Computer Association

Tools available

- Mail Marshal

- Used by MVECA and 5 district email servers
- 4 districts do their own SPAM blocking
- Blocking between 70% and 75% of the messages.
 - Total messages include those not scanned for SPAM

New Option

■ IronPort

- Free service by the MC-TSG
- Reputation based scanning only
- With MVECA and 3 districts – 25% reduction in SPAM messages
- IronPort currently blocking 30 million messages a day state wide

Internet Filtering

- 2 new cache/filters are being setup
- WebWasher from Secure Computing
 - 500gig of cache
 - N2H2 (Bess) filter plus additional categories
 - Better management tools
 - Better Delegated Administration

Internet Filtering

- Purchased with grant funds from ODE
 - \$35,000
 - No local funds were needed
- Hope to have on-line by end of November

[Next Assembly Meeting]

Spring Assembly Meeting
April 17, 2008
