CentralAdmin v26.0.0 Release Notes

This document is an overview of updates in CentralAdmin v26.0.0.

Included in this release:

- Enhancement

Related CentralAdmin documentation is available on the ITC Support Portal:
https://frontline-ohsis.atlassian.net/wiki/spaces/ISP/overview

Enhancement

Secrets

- On the **Secrets** screen (**Management > Secrets**), the following **Identifiers** have been added for storing secret signing key values used with Redis caching information:
    - **Caching.AppData.RedisConfig**: This connection is read by DataMap, Exago Report Access, and the Security Library (Notifications, Exago Report Access, and SpecialServices app security).
    - **Caching.SessionState.RedisConfig**: This connection is read by GradeBook, ParentAccess, and StudentInformation.

  These secrets are now used with Redis caching information instead of the **Cache Host Configuration** field on the **Settings** screen, **General** tab.

DataMap v26.0.0 Release Notes

This document is an overview of updates in DataMap v26.0.0.

Included in this release:

- Enhancement

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancement

RIMPs

- On the **Edit Student RIMP** screen, the **Interventions** tab has been added to enable you to quickly view and access student interventions for the school year in context. The **Interventions** tab lists the following columns of information:
    - **Program**
    - **Type & Subject**
    - **Tier**
    - **SpEd Teacher**
    - **Interv Provider** (Intervention Provider)
    - **Ref Date** (Referral Date)
    - **Start Date**

  The Program name is a link you can click to access the **Edit Student Intervention** screen, **General** tab. If the student does not have any active interventions for the school year in context, a message displays on the **Edit Student RIMP** screen, **Interventions** tab.

GradeBook v26.0.0 Release Notes

This document is an overview of updates in GradeBook v26.0.0.

Included in this release:

- Enhancements
- Resolved Issue

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

Teachers

Seating Charts

- When the **Show Preferred Name** checkbox is selected on the **Create a Seating Chart** screen, students' preferred names are displayed on the seating chart by default. Teachers can click a student's desk to expand it and view the student's legal name. When the **Show Preferred Name** checkbox is not selected, the students' legal names are displayed on the seating chart. Teachers can click a student's desk to expand it and view the student's preferred name.

  Note: *On the Create a Seating Chart screen, the* ***Show Preferred Name*** *checkbox is selected by default.*

Reports

- When teachers run a **Classic Report** from the **Reports Menu**, the report results may open in a new browser tab. Teachers can download the generated file directly from that tab.

Resolved Issue

Teachers

- (SOSCS-1217) Previously, students with an **Active** status were hidden on the **Class Roste**r for second semester classes before the class **Start Date**, and teachers had to update the roster manually and clear the **Hide?** checkbox for each student. Now, the system checks that the students' **Class Entry Date** matches the class **Start Date**, and students with an **Active** status display correctly on the **Class Roster** for second semester classes.

StudentInformation v26.0.0 Release Notes

This document is an overview of updates in StudentInformation v26.0.0.

Included in this release:

- Enhancements
  - StudentInformation
  - Reporting
  - StateReporting
- Resolved Issues
  - StudentInformation
  - Reporting
  - StateReporting
  - Civil Rights Data Collection

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

StudentInformation

Account Maintenance

- (PBSIS-41112) When users are migrated to the **Frontline Platform**, the domain associated with their previous account is now cleared. In search results on the **View Accounts** screen, the **Domain** column and **Account Type** column are blank for users with a Frontline Platform account.

Student Search Results

- When you launch a Student screen without a student in context, the **Student Search Results** screen that displays no longer lists "[Social Security Number] (555-55-5555)" as a search option.

Student Memberships

- On the **Membership Members** screen and the **Edit Memberships** screen, for **Membership Group** "41 – Academic Intracurricular Descriptions (Vocational)," the code "410020 – Future Business Leaders of America (FBLA)" has been added.

Student Transfer

- The **Student Transfer** and **Bulk Student Transfers** processes now transfer the student's most recent Disadvantagement, English Learner, and Homeless Status values to the new

building/district/ITC so that the **Edit Student Profile**, **FD-Attributes** tab remains accurate and consistent after transfer.

Withdraw Student

On the **Withdraw Student** screen, withdrawal processing logic has been updated for students with a **Withdraw Reason** code of 76, 77, 78, or 79. When one of these codes is selected, the following fields on the student profile now populate with "DR" upon withdrawal:

- **Grade Next Year** field on the **Edit Student Profile** screen, **General** tab populates with "DR."
- **EMIS Grade Next Year** field on the **Edit Student Profile** screen, **FN-Attributes** tab populates with "DR – Student has dropped out, is not enrolled, not known to be enrolled."

Reporting

New Report Designer

- In the new version of **Report Designer** (new Exago), users can create and print an attendance letter from the **Student Absence Intervention** screen or a discipline letter from the view/edit version of the **Discipline Incident** screen.

Categories

- In the **Add Data Objects** box, the **Teacher** folder has been added to the list of Data Objects. Within the **Teacher** folder the following categories are available for selection:
  - StudentProgressCore (Traditional assignment data)
  - StudentProgressStandardsBased (Standards-based grading)
  - StudentProgressComments (Teacher comments)
  - StudentProgressAttendance (Attendance records)
  - StudentProgressAverages (Grade calculations)
  - StudentProgressParentAccess (Parent portal data)

  Each of these categories includes the field **StudentID** as a Category Joining ID field so that GradeBook data can be joined with StudentInformation data.

StateReporting

CSV Transfer Files with No Data

- (PBSIS-44483) Previously, assessment transfer files in the CSV format that did not include data for specific records had multiple header rows at the beginning of the file and were rejected by the Data Collector. Now, when there is no data for a specific CSV transfer file, the header for that file type is not included in the CSV transfer files.

© 2026 Frontline Education

Assessments

- On the **CTE Student Assessment (OCTCA)** screen, the Score Code of "I – Student has not completed enough modules for a valid score" has been removed for FY27 and forward. This code is no longer a valid entry in the following fields:
    - On the **CTE Technical Score** tab in the **CTE Technical Score** field
    - On the **CTE Portfolio Score** tab in the **CTE Teaching Professions Portfolio Score** field

  The code "I" is no longer included in error messages on either tab.

  Additionally, on the **CTE Technical Score** tab, the following codes have been removed from the **CTE Student Assessment Code** field for FY27 and forward:

01MC Accounting
02MC Administrative Office Technology
46MD AFNR Bioscience
03MC Agribusiness and Production Systems
05MC Agricultural and Industrial Power
09MC Air Transportation
25MC Allied Health and Nursing

© 2026 Frontline Education

- On the **Tier 1 Dyslexia Screener** screen in the **Product Name** field, the following updates have been made for FY27.
    - The name of the "i-Ready® Diagnostic for Reading with Literacy Tasks" product has been updated to "i-Ready® Inform for Reading with Literacy Tasks."
    - The following product has been removed:

CODE	PRODUCT NAME
LVRE	Acadience Reading K-6 (formerly DIBELS Next)

CTE Program of Concentration

- For FY27, CTE Program of Concentration and Program Area codes have been added and updated. The CTE Program Area "Energy" has been added. On the **Edit Student Profile** screen, **FN-Attributes** tab, Program of Concentration options are filtered based on the selected Program Area in alignment with EMIS Change 27-20(b).

Graduate Reporting Period (G)

- For FY27 and forward, on the **EMIS - Verify/Update and Transfer Period (G)** screen when "Transfer EMIS Data (G)" is selected as the **Request Type**, when the following files are selected on the **Program Selection** tab, the file created will be in the CSV format and not a flat file:
    - Transfer - ACT (AC)
    - Transfer - AP (AP)
    - Transfer - CTE Industry Credential (GW)
    - Transfer - CTE Student Assessment - OCTCA (GY)
    - Transfer - End of Course (GE)
    - Transfer - HS Alternate Assessments (GX)
    - Transfer - International Baccalaureate (IB)
    - Transfer - SAT (SA)
    - Transfer - Student Graduate CORE Summary (GC)
    - Transfer - Student Graduate Demographic/ Attributes (GI, FN)
    - Transfer - Student Program (GQ)
    - Transfer - Student Special Ed. Graduation Requirement (FE)
    - Transfer - Student Withdrawal Override (FC)
    - Transfer - WorkKeys (WK)

© 2026 Frontline Education

Resolved Issues

StudentInformation

Graduation Tracking

- (SOSCS-877) Previously, on the **Graduation Summary** screen in the **Permanent Requirements** area, **Show Competency** was incorrect for students with an IEP Exemption, and not all IEP Exemptions displayed. Now, **Show Competency** correctly displays as Complete if a student has two attempts at ALG1 & ELA2 *or* AASCD Math & Reading if the student has an IEP exemption for the same school year.
- (PBSIS-20712) Previously, on the **Student Exemptions/Requirements** screen, users whose security roles were set to view-only access for the screen still had the ability to make updates. Now, if the user role access is set to "Disabled" for Add, Change, or Delete functionality on the Sitemap for the role (as indicated by a red "X"), the **Student Exemptions/Requirements** screen is view-only for the role, and the user will not see the green **Update Exemptions** button.

  Note: *The* ***Sitemap*** *is accessed for a security role from the* ***View Role****s screen by clicking the* ***Add New Roles*** *button or* ***Edit*** *icon, then clicking the* ***Edit Sitemap Access*** *button.*

School Administration

- (PBSIS-39387) Previously, users at districts with a large amount of data in their report card batches received an error when they tried to access the **View Archived Report Cards** screen. Now, the API has been updated, and the **View Archived Report Cards** screen displays correctly with the expected report card counts.

Reporting

Analytics Hub

- (SOSCS-1968) Previously, the **Chronic Absenteeism Thresholds (Hours to Date)** report incorrectly displayed students with multiple FS records with a line for each FS record. Now, students with multiple FS records are only listed in the report once with their most recent FS record and the correct attendance calculation for the year in context.
- (SOSCS-2761) Previously, for districts using new Exago, reports that use blank as a filtered field were not functioning as expected. Now, that issue has been resolved, and users can filter using blank fields.

  Note: *The* ***Advanced > Custom Options*** *box now includes the* ***Ignore_Blank_Filters*** *checkbox. Selecting this option will cause any filters that are unset or left blank to be ignored when running the report.*

© 2026 Frontline Education

- (PBSIS-43574) Previously, for districts using new Exago, the **Analytics Hub** screen would go blank and crash when users entered a value in the **[Search Name \ Description]** field and pressed the **Enter** key. Now, users can enter values in the **[Search Name \ Description]** field without issues, and results display as expected.

New Report Designer

- (SOSCS-2772) Previously, in the new version of **Report Designer** (new Exago), users with access to "Pending Reports" folder had read-only access to the folder and were unable to work with pending reports. Now, users who have access to update at least one system folder can create, update, or delete reports within the "Pending Reports" folder.

StateReporting

CTE Industry Credentials

- The industry credential codes CS61-CS95, which were introduced in FY25, were not copied up with the new school year script for FY27. Now, when users on the **CTE Industry Credentials** screen are adding or editing an industry credential for FY27, the industry credential codes CS61-CS95 are available for selection.

Verify Special Education

- (PBSIS-38731) Previously, the error message "Extended School Year Services must be 'N' or 'Y' for IEP date type" was incorrectly displayed when the student in context had a combination of IIEP with IENS or IEPR outcome or RIEP with IENS or IEPR outcome. Now, this has been corrected, and the error message does not display for any IIEP event that has an outcome Id value of IENS or IEPR or any RIEP event that has an outcome Id value of IENS or IEPR.

Civil Rights Data Collection

Civil Rights Report (CRR)

- (PBSIS-37466) Previously, the PDF report output switched the titles for the DISC-23 and DISC-25 tables, though the data displayed for tables was correct. Now, the tables have been updated as follows:
    - DISC-23 is now correctly labeled as "Discipline of Students with Disabilities who received Only One Out-of-School Suspension."
    - DISC-25 is now correctly labeled as "Students with Disabilities who received More than one Out-of-School Suspension."
- (PBSIS-37407) Previously, for **DISC-21: Instances of Suspension**, students with IDEA or 504 plans recorded on the Edit Student Profile, FD-Attributes tab during the school year, but who did not have these plans in effect at the time of the Out-of-School Suspension, were incorrectly included in the "With Disabilities IDEA" or "With Disabilities 504" column. Now, if the IDEA or 504 plan is not in effect at the time of the Out-of-School Suspension, the student is correctly counted in the "W/O

© 2026 Frontline Education

Disabilities" column. If the student has a second instance of suspension after the IDEA or 504 plan has been added on the FD-Attributes tab, that instance is counted in the "With Disabilities IDEA" or "With Disabilities 504" column as appropriate.

Manual Civil Rights Data Collection

- (PBSIS-36682) Previously, if no data was entered the **Manual Civil Rights Data Entry** screen and the user clicked **Reset All**, the message, "'Please enter a value" displayed. Now, if no data is saved and **Reset All** is clicked, data clears correctly, and the following message displays:
"The Manual Civil Rights Data Entry Attributes have been Reset."

VendorLink v26.0.0 Release Notes

This document is an overview of updates in VendorLink v26.0.0.

Included in this release:

- Enhancement

Related VendorLink documentation is available on the *ProgressBook API Portal*.

Enhancement

SIS - BellSchedule

- When **SIS – BellSchedule** is called, the collections **TimeTableDay** and **TimeTablePeriod** are now returned sorted in the correct order.

© 2026 Frontline Education

ProgressBook End-User Requirements

The following tables list the supported software versions for ProgressBook end users. The ProgressBook Suite has been tested successfully using these product and version configurations. Other configurations may function without issue; however, these are the versions actively tested and supported in the ProgressBook Suite.

Operating System	Browser	Adobe Acrobat Reader
Apple		
macOS v12.6 “Monterey”	Safari v16.x	DC
Microsoft		
Windows 10	Google Chrome (latest)[1]	DC

[1] *Due to the rapid release cycle of this browser, the ProgressBook Suite is tested with the latest public released version of Chrome just before the ProgressBook Suite release.*

Additional Configurations Supported by ParentAccess

Operating System	Browser
Apple	
iOS 12	Safari

Pop-up Blockers

ProgressBook displays documents and informational messages in pop-up windows. Pop-up blockers must be disabled in your browser for ProgressBook to function properly. Check your system settings to enable pop-ups for the ProgressBook Suite websites.

Browser Extensions and Add-Ons

Some browser extensions or add-ons for the supported operating systems may cause issues with the ProgressBook Suite. If you feel you have found a specific extension or add-on that causes issues, please enter a ticket so ProgressBook can investigate the issue.

© 2026 Frontline Education
