CentralAdmin v25.3.0 Release Notes

This document is an overview of updates in CentralAdmin v25.3.0.

Included in this release:

- Enhancement

Related CentralAdmin documentation is available on the ITC Support Portal:
https://frontline-ohsis.atlassian.net/wiki/spaces/ISP/overview

Enhancement

Health Check End Points

- In ProgressBook 25.3.0, all health check end points have been updated to include the AssemblyName and AssemblyVersion to help detect configuration errors.

GradeBook v25.3.0 Release Notes

This document is an overview of updates in GradeBook v25.3.0.

Included in this release:

- Enhancements
- Resolved Issues

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

Administrators

Homeroom Assignments

- (PBSIS-40727) When staff assignments are added in StudentInformation, the assignments now display in GradeBook as soon as the integration process runs between StudentInformation and GradeBook. In the past, staff assignments did not display in GradeBook until one week before the reporting period start date.

Principals

- On the **Saved Report Cards** screen, **Final** tab, report card runs with a "Pending" status that are not finalized within 60 days are now automatically deleted. The message "Pending report card runs older than 60 days will be removed" is now displayed on the screen.

Teachers

Lesson Plans

- On the **Lesson Plan Management** screen, **Search** tab, search results now include the **Last Updated** column and the results are listed with the most recently updated lesson plan first.
- For lesson plans that have standards added, when teachers on the **Lesson Plan Management** screen, **Search** tab select to view a lesson plan, the displayed lesson plan now also includes the details for each standard selected.

Resolved Issues

Administrators

Report Management

- (PBSIS-41854) Previously, when **Report Management** was selected to display the **Report Builder**, administrators had issues if they created a report file with edits to an existing report and tried to upload the new file. Now, a new file with edits to an existing report can be successfully uploaded.

Principals

- On the **Report Card Student List** screen in the **Legend** description, the font used for the text "Requires Paper Copy" now displays correctly.

Teachers

Class Setup

- (SOSCS-973) Previously, if a teacher had two active staff records and one record was tied to a class at a different building and the teacher clicked **Edit List** on the **Teacher Home Page** for a class at their secondary building, the **Class Setup** screen did not open and a "Communication with server" error displayed. Now, in this scenario, the **Class Setup** screen opens as expected and no error is displayed.

Lesson Plans

- (SOSCS-1175) Previously, on the **5 Day Planner** screen, if teachers selected the **Include: Details** checkbox but one of the lesson plans had no saved details, an error message displayed. Now, if a lesson plan has no saved details, the **5 Day Planner** screen displays correctly without error.

StudentInformation v25.3.0 Release Notes

This document is an overview of updates in StudentInformation v25.3.0.

Included in this release:

- Enhancements
  - StudentInformation
  - Reporting
  - StateReporting
  - ITC-Level
- Resolved Issues
  - StudentInformation
  - Reporting
  - StateReporting

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

StudentInformation

Account Maintenance

- (PBSIS-40511) On the **Add/Edit Account** view of the **Account** tab, when existing users are migrated to Frontline Platform, their existing username now remains displayed in the **Username** field and is not updated to display their Frontline Platform username.

  Note: *For new users, the functionality has not been updated. When a new user has been created in Frontline Platform and you navigate to the* ***Account*** *tab, the* ***Username*** *field displays their Frontline Platform username.*

Edit Student Profile

- On the **Edit Student Profile** screen, the name of the **FS-Attendance** tab has been updated to **FM-Attendance** to reflect that information on this tab now relates to the new **Transfer - Student Detailed Attendance (FM)** record. When users update and save this tab, the message displayed has been updated to reference FM-Attendance.

  Note: *See "StateReporting" for more information about the* ***Transfer - Student Detailed Attendance (FM)*** *record.*

Graduation Tracking

- On the **Student Exemptions/Requirements** screen, the following updates have been added:
    - In the **EMIS Graduation Elements** section, an informational icon ( ) has been added for **CORE Economics and Financial Literacy**. When you hover your cursor over this icon, the following message displays:
      "For students with FYB9 ≥ 2023, the FN element is not applicable. These students must either complete a half credit in Financial Literacy or be exempt via program code 520215."
    - The **Optional Graduation Requirements** section is hidden for any student who began 9th grade (FYB9) after 2017.
    - The **Optional Career-Technical Requirements** section has been renamed as **Alternative Demonstrations of Competency**. A link to the ODEW website for information has been added. The requirement "Industry Credential" has been removed. These updates are for all fiscal years.
    - The **State System of Diploma Seals** section has been renamed as **Graduation Readiness Seals**.

Request Assignments

- On the **Student Requests & Assignment** screen, course requests that were imported using the **Student Course Request Import** screen now default with a **Request Status** of "Locked," which means that the student and/or guardians are not able to modify the course request. You can clear the selection if you want to allow the student or guardians to modify the course request.

Scheduling

- On the **Schedule Card Formatter (R701)** screen, the **Omit Social Security Number** checkbox has been removed from the **Selection Criteria** tab and this parameter is no longer listed on the **Selection Summary** tab. If on the **Selection Criteria** tab, the **Report Layout** is "Schedule Card Format 4," "Schedule Card Format 5," or "Schedule Card Format 16," the report output no longer includes student Social Security Numbers. Previously stored Social Security Numbers (SSNs) were securely cleared from the database in StudentInformation v25.0.0.

Student Reports

- The **Student with No SSNO (SSNO)** report has been removed. All previously stored Social Security Numbers (SSNs) were securely cleared from the database in StudentInformation v25.0.0.

© 2026 Frontline Education

Reporting

Analytics Hub

- In the **Eligibility** folder, the **Student ASVAB Results Report** has been added to enable districts to generate a report of all students with ASVAB scores for the selected parameters. The **School Year** filter for the report defaults to the current fiscal year.

  Note: *For districts that use the old Analytics Hub (old Exago), the* ***StudentGradASVABScores*** *report in the Eligibility folder has been removed and replaced by this new report.*

New Report Designer

- The new version of **Report Designer** (new Exago) has the following updates:
  - When users create a report, in the **Filter** section, the function "GetDefaultSchoolYear" has been added. When "GetDefaultSchoolYear" is selected, the school year displays whatever the default school year is set for the district
  - Users can now access the **Eligibility > StudentGradASVABScores** category.

StateReporting

Assessment Reporting Collection (A)

- When "Transfer Assessment Data" is selected on the **Request Type** tab, the selections below on the **Program Selection** tab now generate the file in CSV format instead of flat file format.
  - "Transfer - ACT (AC)"
  - "Transfer – AP (AP)"
  - "Transfer – CTE Industry Credential (GW)"
  - "Transfer - CTE Student Assessment - OCTCA (GY)"
  - Transfer - DPR Growth Assessment (GD)
  - "Transfer - End of Course (GE)"
  - "Transfer - HS Alternate Assessments (GX)"
  - "Transfer - International Baccalaureate (IB)"
  - "Transfer - KRA (GO)"
  - "Transfer - Next Generation Assessment Grades 3-8 (GN)"
  - "Transfer - OELPA (GF)"
  - "Transfer - Preschool COS (GM)"
  - "Transfer - Reading Diagnostic (RD)"
  - "Transfer - SAT (SA)"
  - "Transfer - Student Achievement OAA (GA)"
  - "Transfer - Tier 1 Dyslexia Screener (DS)"
  - "Transfer - WorkKeys (WK)"

© 2026 Frontline Education

Student Reporting Collection (S)

- For FY26 and forward, on the **EMIS - Create Transfer Files - Select Files** screen when "Transfer Student Data" is selected as the **Request Type**, the **Program Selection** tab now includes the selection **Transfer - Student Detailed Attendance (FM)**. The file created for the **Student Detailed Attendance (FM)** file will be in the CSV format and will include the new attendance data records in the required layout.

  With this new **Transfer - Student Detailed Attendance (FM)** file, attendance data has been removed from the **Transfer – Student Standing (FS)** file.

  The updates below have been made to the **EMIS - Create Transfer Files - Select Files** screen to reflect that transfer files are created in the available format for the transfer, either CSV format or flat file format. References to "Flat" have been removed.

  - The header displayed above the tab has been updated from "EMIS - Create Flat Files - Select Files" to "EMIS - Create Transfer Files - Select Files."
  - In the **Transfer Type** field, the options have been updated to "File transfer" and "File transfer to Data Collector."
- When "Transfer Student Data" is selected as the **Request Type**, on the **Program Selection** tab, the **Transfer - Student Attributes - No Date (FN)** selection now generates the file in CSV format instead of a flat file.

ITC-Level

EMIS Codes

- On the **EMIS Code Maintenance** screen, the Detailed Attendance Codes (FM) below have been added for FY26 and FY27 for use with the new **Transfer - Student Detailed Attendance (FM)** file.

Record Field Number	Definition	Valid Options
FM070	Indicates what type of attendance is reflected by the hours on this record.	• AT – In attendance • EX – Excused absence • UN – Unexcused absence
FM080	Additional context to further define the attendance type for this record.	• AB Absent • AT In attendance
FM100	The actual number of hours a student was in attendance or absent for the combination of Attendance Type and Attendance Detail between the effective dates on this record, inclusive.	0000.00 – 1800.00

© 2026 Frontline Education

Manage School Settings

- On the **Default School Year** tab, updating the default school year for an active individual district or at the ITC level now has the following results:
    - Integration is now turned off, which clears the **Progress Book On** checkbox at the district level and for all individual buildings. For individual buildings, the **Progress Book On** box is selected on the **School Building Administration > School Demographics** screen. The following message has been added to the **Manage School Settings**, **Default School Year** tab to remind users that the **Progress Book On** setting will need to be updated: "PLEASE NOTE: Integration will be turned off after setting the new default school year and will need to be manually turned on."
    - In the **Analytics Hub** (for districts using New Exago), the default school year used with reports is now updated.

Resolved Issues

StudentInformation

Graduation Tracking

- (SOSCS-1136) Previously, on the **Graduation Summary**, **Industry Credentials** screen, some industry credentials did not display as appropriate for all applicable career fields. Now, if a student has earned a credential that applies to multiple career fields, the credential is correctly listed on the **Industry Credentials** screen under the headings for each applicable career field.

Scheduling

- (PBSIS-40669) Previously, if on the **Schedule Card Formatter (R701)** screen, users selected to run the report for multiple students (for example, an entire grade or membership group) and one or more students in the selection had a **Primary Contact** without a saved **Home Address**, the report output randomly listed unrelated parent contacts for students in the report. Now, this has been corrected, and report output includes students' correct contact regardless of whether a Primary Contact has a home address saved.

Vendor Extract Reporting Config

- (PBSIS-40414) Previously, after version 25.0.0, when users on the **Vendor Extract Reporting Config** screen selected a report in the **Report Name** field of the **Add Configuration** box, the drop-down list did not display the parent folder name in which the report was located, which made it difficult to distinguish identically named reports. Now, selections in the **Report Name** field display the parent folder name.

© 2026 Frontline Education

Reporting

New Report Designer

- (PBSIS-43414) Previously, when scheduled VendorLink reports were migrated to the new version of **Report Designer** (new Exago), the reports did not work correctly. Now, when scheduled VendorLink reports are migrated to the new **Report Designer**, they operate as expected, and the report data is sent to the FTP destination.

StateReporting

CTE Industry Credential

- (PBSIS-42726) Previously, on the **CTE Industry Credential** screen, the **Assessment Area** field did not include the selections below. Now, they have been added and are available for selection.
    - "CH11 - NCCER Level 1"
    - "CH19 - NCCER Level 1"
    - "CJ32 - Ohio State Board of Nursing"
    - "CL11 - Programmable Logic Controllers Certification"
    - "CP57 - Tableau Desktop Certified Associate"

  For each credential, the corresponding career fields and point values have also been added, and if a student earns the credential, it is displayed on the **Graduation Summary**, **Industry Credentials** screen in the appropriate Industry Credential area with the Points Earned.

VendorLink v25.3.0 Release Notes

This document is an overview of updates in VendorLink v25.3.0.

Included in this release:

- Enhancements

Related VendorLink documentation is available on the *ProgressBook API Portal*.

Enhancements

SIS - StudentDailyAttendance V2

- **SIS - StudentDailyAttendance V2 by SchoolID** call now includes a Date Range parameter so users can enter a specific Start Date and End Date.

© 2026 Frontline Education

ProgressBook End-User Requirements

The following tables list the supported software versions for ProgressBook end users. The ProgressBook Suite has been tested successfully using these product and version configurations. Other configurations may function without issue; however, these are the versions actively tested and supported in the ProgressBook Suite.

Operating System	Browser	Adobe Acrobat Reader
Apple		
macOS v12.6 “Monterey”	Safari v16.x	DC
Microsoft		
Windows 10	Google Chrome (latest)[1]	DC

[1] *Due to the rapid release cycle of this browser, the ProgressBook Suite is tested with the latest public released version of Chrome just before the ProgressBook Suite release.*

Additional Configurations Supported by ParentAccess

Operating System	Browser
Apple	
iOS 12	Safari

Pop-up Blockers

ProgressBook displays documents and informational messages in pop-up windows. Pop-up blockers must be disabled in your browser for ProgressBook to function properly. Check your system settings to enable pop-ups for the ProgressBook Suite websites.

Browser Extensions and Add-Ons

Some browser extensions or add-ons for the supported operating systems may cause issues with the ProgressBook Suite. If you feel you have found a specific extension or add-on that causes issues, please enter a ticket so ProgressBook can investigate the issue.
