CentralAdmin v25.0.0 Release Notes

This document is an overview of updates in CentralAdmin v25.0.0.

Included in this release:

- Enhancements
- Resolved Issue

Related CentralAdmin documentation is available on the ITC Support Portal:
https://frontline-ohsis.atlassian.net/wiki/spaces/ISP/overview

Enhancements

Resources

- The **Resources** screen (**Management > Resources**) has the following updates to the URL Types available for selection:
    - **Direct** has been added for storing off-Mesh URLs, and the **Direct** column has been added.
    - The name of the URL Type **External** has been updated to **ThirdParty**, and the name of the **External** column has been updated to **ThirdParty**.
- The following resources have been added:
    - **Progressbook.ExagoBff**
    - **Platform.Issuer.Passport**
    - **Platform.Issuer.Custom**

Secrets

- On the **CentralAdmin Management** navigation menu, the **Secrets** section has been added to enable storage of secret signing key values, known as "Identifiers," that are used with Frontline Platform. Select **Management > Secrets** to display the **Secrets** screen with a list of Identifiers.
    - To add a secret signing key value for an identifier, select **Action > Create** to display the **Create Secret for Platform** screen for the identifier and enter the **Name** and **Value**, then click **Save**. The **Secrets** screen displays the **Identifier** and **Name** for the saved secret key.

© 2025 Frontline Education

frontline education

- To edit a secret signing key value for an identifier, select **Action > Edit**, the **Edit Secret for Platform** screen for the identifier displays with the **Name** field shown with the saved entry. The **Value** field displays as blank. If you want to edit the **Value**, first clear the **Value** field, then add the new entry, and click **Save**.
- To delete a secret signing key value for an identifier, select **Action > Delete**. The **Confirm** pop-up window displays to verify that you want to proceed with deleting the saved secret. Click **Yes** to continue with the deletion or click **No** to close the **Confirm** pop-up window without deleting the secret.

Resolved Issue

Frontline Platform

- Previously, if a user logged in to Frontline Platform, navigated to a ProgressBook app other than Central, then clicked "**?**" to go to the SIS-Ohio Learning Center, CentralAdmin directed the user to the Error page with a "System.InvalidOperationException" error. Now, in this scenario, users can click "**?**" and go directly to the Learning Center without an error.

© 2025 Frontline Education

DataMap v25.0.0 Release Notes

This document is an overview of updates in DataMap v25.0.0.

Included in this release:

- Enhancements
- Resolved Issues

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

Manage RIMP Communication

- The **Manage RIMP Communication** screen has been added to enable you to create district-level templates that are selected on the **Edit Student RIMP** screen, **Collaboration** tab for communications with staff and parents.

  Select **Admin > Manage RIMP Communication** to display the **Manage RIMP Communication** screen. To add a new template, click **Add Template** to open the **New Communication Template** window. For each template, complete the **Title** that will display to users on the **Edit Student RIMP** screen, **Collaboration** tab and enter a **Summary** with your text and formatted message. Click **Save**. The **New Communication Template** window closes, and the saved template is listed on the **Manage RIMP Communication** screen.

  Tip: *You can insert the placeholder* ***#name#*** *anywhere in your message. When the template is used on the* ***Edit Student RIMP*** *screen,* ***Collaboration*** *tab, this placeholder will be automatically replaced with the signer name.*

  To edit or delete a saved template, in the row for the template, hover your cursor in the **Actions** column to display (**Edit** icon) and ✕ (**Delete** icon), then click the icon for the action you want to take.

Import Assessment Scores

- (PBSIS-28301) For the **Acadience ALO** assessment, the import process has been updated to match the following changes to column headings in the file for the 2023-2024, 2024-2025, and 2025-2026 school years.

© 2025 Frontline Education

frontline education

Old Column Heading	New Column Heading
Reading Composite Date	Composite Date
Reading Composite Score	Composite Score
Reading Composite Status.	Composite Status.

- (PBSIS-28129) For the **i-Ready** assessment, the import process has been updated to match the following changes to column headings in the file for the 2023-2024, 2024-2025, and 2025-2026 school years.

Old Column Heading	New Column Heading
Comprehension: Literature Scale Score	Reading: Comprehension Literature Scale Score
Comprehension: Literature Placement	Reading: Comprehension Literature Placement
Comprehension: Informational Text Scale Score	Reading: Comprehension Informational Text Scale Score
Comprehension: Informational Text Placement	Reading: Comprehension Informational Text Placement

- The **Dibels 8 Assessment** now includes the following data points for **Subject** of **Reading** for the 2023/2024 and 2024/2025 school years and beyond. These data points display on the **Student Roadmap** for the students in the import file.

Data Point in Import File	Subject Label	Has Benchmark?
Vocabulary	Vocabulary	Y
Spelling	Spelling	Y
RAN	Rapid Automatized Naming	Y
Risk Indicator	Risk Indicator	N
DIBELS Composite Score	DIBELS Composite Score	N

Additionally, the **Composite Score** is now under “Reading “instead of “English.”

Graduation Points

- The **Graduation Points** screen, **Graduation Pathways** view now includes a **Score** column for each State Assessment next to the placement level column for the assessment. These new columns are also included in the Export File for the **Graduations Pathway** view.

© 2025 Frontline Education

- The **Graduation Points** screen, **Competency** view now includes the **State-Issued License** column in the "Additional Options" section. If a student has completed the requirement in StudentInformation, a green checkmark ( ) displays in the **State-Issued License** column. This new column is also included in the Export File for the **Competency** view.

RIMPs

- If a student has assessment scores imported for prior years, the prior year's assessment is now available for selection in the **Assessment** drop-down list of the **Initial Screening Measure** screen.
- On the **Edit Student RIMP** screen **Reading Component** tab, the **Program Materials** field has been added. This is a text field in which you can enter the instructional materials from the Ohio Department of Education and Workforce (ODEW) that are being used with the RIMP.
- On the **Edit Student RIMP** screen **Collaboration** tab, the name of the **Person** field in the **Add Signature** window has been updated to **Template** and the drop-down selection list now includes any district-level templates that were created on the **Communication Template** screen. When you select a communication template and click **Add**, the text for the template populates the new signature area in the **Parent/Guardian and School Involvement** area of the **Collaboration** tab along with the **Name** you entered in the **Add Signature** window.

Resolved Issues

Graduation Points

- (PBSIS-28929) Previously, on the **Graduation Points** screen, if you selected to filter the screen by **Teacher**, the **Graduation Plan** icon ( ) did not display on the screen. Now, the **Graduation Plan** icon ( ) displays when the screen is filtered by **Teacher**.
- (PBSIS-35523) Previously, on the **Graduation Points** screen, if "Graduation Pathways" was selected in the **View Mode** field, the **Overall Status** column did not display the correct indicator that was displayed on the **Grad Points Summary** screen in StudentInformation. Now, the correct Overall Status indicator displays for the Graduation Pathways view in DataMap.

RIMPs

- (PBSIS-36014) Previously, if a RIMP had the **Status** of "Closed," the **Tier 2 Dyslexia Screener Result** field did not display to users with a DataMap General Access role. Now, when a RIMP is closed, the **Tier 2 Dyslexia Screener Result** field operates the same as other fields on the tab and is displayed but cannot be edited.

© 2025 Frontline Education

GradeBook v25.0.0 Release Notes

This document is an overview of updates in GradeBook v25.0.0.

Included in this release:

- Enhancements
- Resolved Issues

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

Administrators

School Calendars

- (PBSIS-34499) On the **Calendars List** screen, **Schools** tab, if the selected school does not have a default calendar set, the **Default Calendar** field is blank so that it does not appear that a default calendar is selected. If the school does not have a default calendar set and you try to save the screen, a message is now displayed.

Reports

- (PBSIS-34793) The Classic Report **"Daily Progress Attendance"** has been removed from the following locations:
    - On the **Administrator Home Page** in the **Run a Report** drop-down list
    - On the **Principal Home Page** in the **Administrative Reports List**
    - On the **Clerk Home Page** in the **Administrative Reports List**
    - On the **Attendance Home Page** in the **Attendance Information** list
- Analytic Hub Reports are now sorted alphabetically in the following locations:
    - On the **Administrator Home Page** in the **Run a Report** drop-down list
    - On the **Principal Home Page** in the **Administrative Reports List**
    - On the **Attendance Home Page** in the **Administrative Reports List**
    - On the **Clerk Home Page** in the **Administrative Reports List**

© 2025 Frontline Education

frontline education

- On the **Guidance Home Page** in the **Administrative Reports List**
- On the **Teacher Home Page** and **Class Dashboard** in the **Run a Report** drop-down list

Teachers

Class Dashboard

- When integration runs, students are now listed on the **Class Dashboard** if their start date in the class is a future date that is the same as the class start date. If a student's start date in the class is a future date that is after the class start date, the student is considered Future Enrolled and is not listed on the **Class Dashboard**.

Daily Attendance (HR)

- (PBSIS-34730) If a student is assigned to a homeroom in StudentInformation, but it is before the student's Enrollment Date, the student is listed on the **Daily Attendance** screen without a drop-down selection list in the **Daily Att** column and cannot be marked absent. The drop-down selection list in the **Daily Att** column becomes available on the student's Enrollment Date.
- The User Interface of the **Daily Attendance** screen has been updated for a more streamlined look, but the functionality of this screen has not changed.

Period Attendance

- The User Interface of the **Period Attendance** screen has been updated for a more streamlined look, but the functionality of this screen has not changed.

Seating Charts

- Teachers can now copy a seating chart within the same class. On the **Seating Chart** screen, the **Copy** button has been added. When teachers click **Copy**, the copied seating chart opens in its own browser tab and has "(Copy)" appended to the seating chart name. The copied seating chart includes all information from the original seating chart, except for name pronunciation at this time. Teachers can use the copy to create different versions of seating charts for a class and then select the version they want to use.

Student Profile

- The **Student Profile** screen now includes the **Preferred Pronouns** field. If a student's preferred pronouns are saved in StudentInformation, this field is populated in GradeBook when integration runs.

  Note: *To display the* ***Student Profile*** *screen, click a student's name on the* ***Class Dashboard****.*

© 2025 Frontline Education

ITC-Level

Nightly Integration

- The nightly integration process now includes two stored procedures ("prc_GetAttendanceTotals_Batch" and "prc_AddAttendanceMarks") that formerly ran separately to populate the attendance calculations that display on the **Report Card Entry** screen:

Resolved Issues

Administrators

Assignment Mark Import

- (PBSIS-37203) Previously, some assignments that were imported from third-party applications on the last date of a reporting period were considered outside of the reporting period, depending on the time stamp associated with the **Date** field. Now, the VendorLink API that is used with third-party applications has been updated to remove the time stamp from **Date** field in the interface between GradeBook and third-party applications.

School Support

- (PBSIS-36980) Previously, the side navigation menu for users with the School Support Role included the **Admin** option used by Administrators that when selected displayed an access denied message. Now, users with the School Support Role no longer see the **Admin** option on the side navigation menu.

Teachers

Class Dashboard

- Previously, on the **Class Dashboard** , the **Lessons** tab displayed "No Assignments." Now, this message has been removed from the **Lessons** tab and only displays as appropriate on the **Assignments** tab.

Standards-Based Grid

- (PBSIS-37784) Previously, if a teacher on the **Standards-Based Grid** selected to view the **Graph** modal, the purple banner at the top of the ProgressBook application window covered the title of the graph and the "X" icon for closing the **Graph** modal. Now, teachers can clearly see the title of the graph and access the "X" icon to close the **Graph** modal.

MobileAPI v25.0.0 Release Notes

In this ProgressBook Suite release, the application does not contain any end-user enhancements or resolved issues; only an updated version number is observable.

© 2025 Frontline Education

frontline education

ParentAccess v25.0.0 Release Notes

This document is an overview of updates in ParentAccess v25.0.0.

Included in this release:

- Enhancements
    - ParentAccess

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and click **?** (Help icon) in the top-right on any screen.

Enhancements

ParentAccess

Registration Key Maintenance

- On the **Registration Key Maintenance** screen, **Generate New Keys** tab the **Include Legal guardian(s) along with Primary contacts** checkbox has been added as an optional field. If you want to generate a ParentAccess registration key for any legal guardians listed for a student for the selected schools, select the **Include Legal guardian(s) along with Primary contacts** checkbox.

Export Registration Keys

- On the **Parent Access Export Registration Keys** screen, the spreadsheet created by the Export Registration Keys process now includes the following columns:
    - **Primary**
    - **Legal Guardian**

  Now that ParentAccess Administrators can generate registration keys for legal guardians, these columns display “Yes” or “No” as appropriate to help you differentiate between primary contacts and legal guardians.

© 2025 Frontline Education

ReportBuilder v25.0.0 Release Notes

In this ProgressBook Suite release, the application does not contain any end-user enhancements or resolved issues; only an updated version number is observable.

© 2025 Frontline Education

Reporting v25.0.0 Release Notes

In this ProgressBook Suite release, the Reporting application does not contain any end-user enhancements or resolved issues; only an updated version number is observable.

See *StudentInformation v25.0.0 Release Notes* for information about updates to specific reports.

SpecialServices v25.0.0 Release Notes

This document is an overview of updates in SpecialServices v25.0.0.

Included in this release:

- Resolved Issue

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Resolved Issue

Documents

- (PBSPS-4347) Previously, after 23.0.0, when documents were printed, the print output had a light gray background. Now, this has been corrected, and the print output for documents has a white background.

© 2025 Frontline Education

frontline education

StudentInformation v25.0.0 Release Notes

This document is an overview of updates in StudentInformation v25.0.0.

Included in this release:

- Enhancements
  - StudentInformation
  - Reporting
  - StateReporting
- Resolved Issues
  - StudentInformation
  - Reporting
  - StateReporting

Related documentation is available in the Learning Center. To access this resource, log in to ProgressBook and select **? > Learning Center** from the banner.

Enhancements

StudentInformation

Account Maintenance

- The **At a Glance** panel that is displayed at the left side of the **View Accounts**, **View Accounts > Add/Edit Account**, and **View/Edit Staff Member** screens now includes the following additional information:
  - **Account Status:**
    - "Frontline Platform" displays if the user has a Platform account if it was created in StudentInformation and migrated or created in Frontline Administration. Also included is a link you can click to copy the staff member's Platform Person ID.
    - If the user has an active StudentInformation account, "Active" displays.
    - "Privileged" displays if the user is a privileged user.

© 2025 Frontline Education

frontline education

  - **Admin School** displays the user's Administrative Home School or District, or "No Account" if they do not have an account.
  - **Default School** displays the school or district if a default is set, or "No Account" if they do not have an account.
  - **Staff Code** displays the user's staff code if they have a staff record for the district that is in context. The staff code is hidden if "All Buildings" or ITC is in context.

- On the **View Accounts** screen, the name of the **New Account** button has been updated to **Add Account**.
- On the **View Accounts > Add/Edit Account** and **View/Edit Staff Member** screens, the **New Account** and **New Staff** buttons are no longer displayed above the tab bank. The **Account** and **Staff** tabs now have search fields that display on the **Account** tab when the person in context does not have an account, or on the **Staff** tab when the person in context does not have a staff record. Use these fields to search for and review any potential matches in existing records before creating a new account or staff record. The new search fields on each tab are listed below.

ACCOUNT TAB – NEW SEARCH FIELDS	STAFF TAB – NEW SEARCH FIELDS
• **First Name*** • **Last Name*** • **Email address*** • **Username** (This field is not displayed if the district has migrated to Frontline Platform.) • **Domain** (This field is not displayed if the district has migrated to Frontline Platform.)	• **First Name*** • **Last Name*** • **Email address*** • **Staff Code** • **State Staff ID**
****These fields default with any saved entries on the **Personal** tab.*	

  Matching results are listed on the tab. For each match you have the following options:

  - Click **View** to view more information about the match.
  - Click **Link** to link the person in context to the match . A pop-up confirmation message displays with more information about the match. Click **Confirm** to link the person to the match.
    ***Note:** To close the message without linking the account, click **Cancel**.*
  - For the tab you are on, click **Create New Account** or **Create New Staff** to add a new record for the person in context.

  If there are no matching results for the tab you are on, a message displays, and the **Create New Account** or **Create New Staff** button is displayed.

- Now, when user accounts are migrated to **Frontline Platform**, only active staff records at a district are migrated. If users have inactive staff records at a district, the inactive records do not migrate.

© 2025 Frontline Education

- On the **View Roles > Add/Edit Roles** screen, when you click **Edit Resource Permissions**, the **Edit Permissions** screen, **Reports** tab now includes the resource "Report Scheduler Admin" that can be set to "View" to allow admins roles at the district level to click (Manage Scheduled Reports icon) on the **Report Designer** screen and see the scheduled reports for all users in the district.

  Note: *The Report Scheduler Admin role is only compatible with new Exago. Districts that have not converted to new Exago cannot utilize this role.*

Course Maintenance

- On the **Course Maintenance > Courses** screen, **EMIS** tab and the **Course Maintenance > Course Sections** screen, **EMIS Override** tab, the subject codes below are now available for selection in the **EMIS Subject Code** field for FY26 and forward.

Subject Code	Description
145130	Applications of Artificial Intelligence
145135	Fundamentals of Operating Systems
145140	Hard Surface Modeling
145145	Introduction to GIS
145150	Introduction to Programming Concepts
145155	Organic Modeling
145160	Personal Computers
145165	User-Focused Design Principles
340216	Fundamentals of Dance
340217	Applied Techniques in Dance
340246	Fundamentals of Musical Theatre
340247	Musical Theatre Production
340252	Fundamentals of Technical Theatre
340253	Skills and Application in Technical Theatre
340254	Advanced Theatre Design and Technology
340350	Social Media Communications

© 2025 Frontline Education

Edit Student Profile

- On the **Edit Student Profile** screen, **Private** tab, the **Social Security** field and **View Social Security** button have been removed. Additionally, all previously stored Social Security Numbers (SSNs) have been securely cleared from the database.

Registration Wizard

- On the **Student Registration Wizard** screen, **Registration Pre-Requisite** tab, the **Social Security** field has been removed.

Fees

- (PBSIS-36062) On the **Outstanding Fees** screen when you click **Search**, processing performance has been improved to return results more quickly without the screen timing out.

Graduation Points

- On the **Grad Points Summary** screen in the **Show Competency** section, under **Additional Options**, the list of **Foundational Activities** now includes **State-Issued License**. The **State-Issued License** foundational activity displays as **Completed** if the student has an associated valid Industry Credential code entered.
- (PBSIS-37405) If a student has earned the CTE Industry Credential "C54 – Adobe Certified Professional – Illustrator CC," the **Grad Points Summary**, **Industry Credentials** screen lists this industry credential under "Business and Finance" with 4 points earned, in addition to listing it under "Arts and Communication" and "Information Technology."
- (PBSIS-36007) On the **Grad Points Summary** screen, under "Additional Options," **Workforce Readiness** information has been updated for the 2024-2025 school year and forward to reflect that Workforce Readiness displays out of 12 points with a minimum of 4 points per assessment area. Previously, Workforce Readiness displayed out of 14 points with a minimum of 3 points per assessment area.
    - The first progress bar now displays the text, "x out of 12 Workforce Readiness Points, and the second progress bar displays the text, "x out of 4 Readiness Minimum Section Points."
    - The **Workforce Readiness** screen now displays the text, "Minimum of 4 points per section and a sum greater than or equal to 12," and **Total Points Earned** displays the text, "x earned/12 required."
    - This update is effective for students who began 9th grade in FY22 or later.

© 2025 Frontline Education

Special Education

- On the **Special Education**, **Events** tab, for IEPs, the selection in the **Extended School Year Services** field now defaults as described below based on your selections on the screen, but you can update it as required for the student.

DATE TYPE FIELD SELECTION	DEFAULT SELECTION IN THE EXTENDED SCHOOL YEAR SERVICES FIELD
IIEP – IEP Completion Date-Initial	• If the selection in the **Outcome ID** field is "IENS – IEP Complete – Not Served" or "IEPR – IEP Complete – Parent Refusal," the **Extended School Year Services** field defaults to "*-Not Applicable" • If the selection in the **Outcome ID** field is anything other than "IENS – IEP Complete – Not Served" or "IEPR – IEP Complete – Parent Refusal," the **Extended School Year Services** field defaults to "N-No"
RIEP – IEP Completion Date-Reevaluation	• If the selection in the **Outcome ID** field is "IENS – IEP Complete – Not Served" or "IEPR – IEP Complete – Parent Refusal," the **Extended School Year Services** field defaults to "*-Not Applicable" • If the selection in the **Outcome ID** field is anything other than "IENS – IEP Complete – Not Served" or "IEPR – IEP Complete – Parent Refusal," the **Extended School Year Services** field defaults to "N-No"
CIEP – IEP Consent Withdrawn by parent	"*-Not Applicable"
AIEP – Amended IEP	"N-No"
TIEP – Transfer Student IEP Adoption Date	"N-No"
NIEP – No IEP	"N-No"

***Note:** For non-IEP events, the **Extended School Year Services** field is automatically set to "**-Not Applicable."*

Student Memberships

- On the **Membership Members** screen and the **Edit Memberships** screen, for **Membership Group** "15 – Academic Intervention/RIMP," the following RIMP Codes have been added for FY26 and forward:
    - 152765 - Explicit Intervention in Advanced Word Study
    - 152817 - Student received less than three days a week or 50 hours over 36 weeks of high-dosage tutoring

© 2025 Frontline Education

- On the **Membership Members** screen and the **Edit Memberships** screen, for **Membership Group** "20 – Gifted Educational Services," the following codes have been removed for FY26 and forward:
    - 205090 - Innovative Services (without a GIS)
    - 206090 - Innovative Services (with a GIS)

  Note: *Membership Code updates also apply to* ***ITC > EMIS > EMIS Codes***, ***School Administration > Membership Groups > Members***, *and* ***Management > Ad-Hoc Updates > Student Membership Copy.***

Student Promotion

- In StudentInformation v24.2.0, the **Student Promotion > Promotion** and **Student Promotion > Student Bulk Enrollment** processes were updated to correctly copy up selections saved on the **Edit Student Profile** screen, **General** tab in the **Gender Identity** field and the **Preferred Pronouns** field. In StudentInformation v25.0.0, a script has been added to ensure that the values saved in the **Gender Identity** field and the **Preferred Pronouns** field are copied correctly from school year 2024/2025 to school year 2025/2026 for districts that promoted and bulk enrolled students into school year 2025/2026 prior to the release of StudentInformation v24.2.0.

Withdraw Student

- On the **Withdraw Student** screen and the **Power Withdraw** screen, you can now withdraw a student who takes an OTC course prior to the start date of the Master Calendar and still retain EMIS Reporting Data for the student. To do this, enter the **Withdraw Date** as the actual date the student withdrew before the start of the Master Calendar. In this scenario, only course sections on the student's schedule with **Curriculum Code** of "TC" and an EMIS term start date that is before the Master Calendar start date are maintained. All other course sections are removed. All other parts of the typical withdrawal process are maintained, such as removing any FD and FS records dated after the withdrawal date and maintaining all **Edit Student Profile** tabs, including any attendance on the **FS-Attendance** tab.

  Note: *A withdraw for a student without any OTC courses prior to the start date of the Master Calendar is considered a Summer Withdrawal. In this scenario, all data for courses, marks, core records, etc., is removed and not available for EMIS reporting.*

ITC > Assessment Maintenance

- (PBSIS-32117) When you select "Reading Diagnostic" or "Tier 1 Dyslexia Screener" in the **Assessment** field, the **Product Name** field now displays on the **Assessment Maintenance** screen and is a required field.

© 2025 Frontline Education

Reporting

Analytics Hub

- In the **Assessments > Non-State Pre-ID** folder, has the following report updates:
    - The **SAT Pre-ID File (SDMS)** report has been added for creating the SDMS Pre-ID file to upload for the SAT State Test day for the 11th grade students.
    - The name of the **SAT Pre-ID File** report has been updated to **SAT Pre-ID (SSOR)** and the description is now, "Creates the SSOR Pre-ID file to upload for the SAT Test."
- In the **Attendance > HB410** folder, the following columns have been added to the **Absence Hours by Reporting Period** report:
    - **Gender**
    - **GradeLevel**
- In the **EMIS > EMIS Assessment** folder, the **WebXam Roster Upload** report has been removed because it is longer needed.

Categories

- When the **EMIS>EndofCourseGradPointRemediation** category is selected, the following fields are now available for selection:
    - **StatusCode**
    - **StatusName**
- When the **EMIS> StudentSpecialEdEventsBySchoolYear** category is selected, the **ExtendedSchoolYearServices** field is available for selection.
- When the **Fees>StudentFeeActivity** category is selected, the **ReferenceDescription** field is available for selection.

StateReporting

Assessments

- On the **AP Exams** screen in the **Subject** field, the **Description** for **Code AP41** has been updated to "African American Studies" from "African American History."

CTE Industry Credentials

- (PBSIS-38423) Due to a clarification in the EMIS Manual as to how long the Industry Credential assessments are valid to be reported, some Industry Credentials that were removed in past releases of StudentInformation have been added back to be available for reporting through the graduation cohort effective for that particular code.

© 2025 Frontline Education

Student Reporting Collection (S)

- The new discipline code "8-Expulsion Under Board Policy to Extend" has been added and is included in EMIS reporting if appropriate for a student under the new severity order for codes.
    - When "Verify Student Data" is selected as the **Request Type** and **Verify – Discipline (DISCEMIS)** is selected on the **Program Selection** tab, the .CSV file includes the code with the total number of hours for the discipline incident.
    - When "Transfer Student Data" is selected as the **Request Type** and **Transfer – Student Discipline – (GD)** is selected on the **Program Selection** tab, the file output includes the discipline code with the total number of hours for the discipline incident.
- (PBSIS-36233) When "Verify Student Data" is selected as the **Request Type** and **Verify – Student Demographic (UNCLEMIS)** is selected on the **Program Selection** tab, students with a **Sent to Reason** of "TC" no longer trigger Error FS06E. The message that is displayed for Error FS06E has been updated to include "TC", as shown below:

    "ERROR: If District Relationship = 1 then % of Time must be > 0 or Sent To Reason (1 or 2) must be EX, PS, NP, PI, or TC"
- For FY26, when "Transfer Student Data" is selected as the **Request Type** and **Transfer - Exiting Student Follow-Up (FW)** is selected on the **Program Selection** tab, the file output now uses **SSID** in position 23-31 instead of **EMIS ID**.
- For FY26, the Preschool Poverty element is no longer needed for EMIS Reporting.
    - When "Transfer Student Data" is selected as the **Request Type** and **Transfer – Student Attributes – Effective Date (FD)** is selected on the **Program Selection** tab, the file output is now blank in position 55, which previously displayed the Preschool Poverty element.
    - When "Verify Student Data" is selected as the **Request Type** and **Verify – Student Demographic (UNCLEMIS)** is selected on the **Program Selection** tab, the following errors related to the Preschool Poverty element have been removed:
        - FD09E (Preschool Poverty Level cannot be N for PS Student)
        - FD10E (Preschool Poverty Level must be N for Non-PS Student)

Student Reporting Collection (S) and Graduate Reporting Period (G)

- For FY26, the **Verify - Membership Programs (MEMBEMIS)** process now includes the following Program Codes for **Membership Group** "15 – Academic Intervention/RIMP":
    - 152765 (Explicit Intervention in Advanced Word Study)
    - 152817 (Student received less than three days a week or 50 hours over 36 weeks of high-dosage tutoring)

Resolved

StudentInformation

Multiple Screens

- (PBSIS-37486) Previously, after the deployment of StudentInformation 24.2.0, the **Absence Type Code** field on multiple screens could include codes available for selection that were not used with the method of attendance set for the district or building in context. (For example, in the **Absence Type Code** field at a school using the method of Daily Attendance, codes set up for Period Attendance were available for selection.) Now, **Absence Type Code** fields only include codes for the attendance method that is used at the district or building in context, as set in the **Method** field of the **StudentInformation Options** screen, **Attendance** tab. This has been corrected for the following screens:
    - **Absence Type Maintenance**
    - **Attendance Fast Entry/Update**
    - **Attendance Fast Delete**
    - **School Absences**

    On the following report screens, the **Absence Type** filter only includes selections for the attendance method that is used at the district or building in context:
    - **EZ Query > Tools > Absence List**
    - **Cumulative Student Period Absence (R316)**
    - **Daily - Student Period Absences (R315)**
    - **Daily Office - Student Absences (R307)**
    - **District-wide Membership Report (R500)**
    - **Student Absence Search Detail (R309-A)**
    - **Student Absence Search Summary (R309-B)**
    - **Student Absence Statistics Report (R311)**
    - **Student ADM/ADA for ABSE Detail (R322-A)**
    - **Student ADM/ADA for ABSE Summary(R322-B)**

Student in Context

- (PBSIS-37552) Previously, if you were on **Frontline Platform** and had access to multiple districts and you had a student in context when you switched from one district to another, the student in context from the prior district remained displayed after you switched districts. Now, in this scenario, if you switch districts, the student in context from the previous district is no longer displayed.

Student Schedules

- (PBSIS-28633) Previously, on the Student **Schedules > Request Assignments** screen, if you attempted to transfer a student into a course/section the student had previously dropped, a message displayed that referenced the date the previously dropped course/section ended and said, "To reassign the student to this section, you must use a date after the previous assignment." Now in this scenario, this message does not display, and the system proceeds with the Transfer/Drop. The Start Date for the added course is set to the next attending day after the date entered for the dropped course.

Transcript Formatter (R702)

- (PBSIS-21171) Previously, on the **Transcript Formatter (R702)** screen and in report output, "OGT" was displayed instead of "HS Alternate Assessment" and the **HS Alternate Assessment** subreport was not included in the report output. Now, the following updates have been made:
    - The **Show Separate Subreport for Selected '4th Prof', '6th Prof', '9th Prof', and 'OGT' Tests** option has been updated to **Show Separate Subreport for Selected '4th Prof', '6th Prof', '9th Prof', and 'HS Alternate Assessment' Tests**.
    - In the **Assessment Test Types** listbox, "OGT" has been replaced with "HS Alternate Assessment."
    - In report output, references to "OGT" have been updated to "HS Alternate Assessment," and the **HS Alternate Assessment** subreport is now included if it has been selected on the **Transcript Formatter (R702)** screen.

Withdraw

- (PBSIS-35784) Previously, if a student was enrolled at multiple buildings, the **District** tab on the **Withdraw Student** screen remained available for selection and could be used to process a **Withdraw**. Now, the **District** tab is disabled for a student enrolled at multiple buildings until you have used the **Building** tab to withdraw the student from each individual building and the student is only actively enrolled in one building. At that point, you can use the **District** tab to district withdraw the student from the last building.

Reporting

Analytics Hub

- Previously, the **Student Address History** report was not displaying address changes if the student had the address previously. Now, the report displays all address changes and their corresponding Address Start Date.

StateReporting

Assessments

- (PBSIS-38730) Previously, on the **Ohio English Language Proficiency Assessment (OELPA)** screen, if you manually added or edited a record with the **Required Test Type** of "ALT – Alternate Assessment," the assessment saved with a NULL value in the **Accommodations** field, and in the **Accommodations** column on the screen, "N/A" displayed instead of "NO." Additionally, when these manually added or edited records were included in a flat file for **Transfer – OELPA (GF)** on the **Assessment Transfer - Collection (A)** screen, the Accommodations columns (positions 53-54) were blank instead of "NO." Now, if you manually add or edit an ALT – Alternate Assessment record, the Accommodations save as "NO" as expected, and "NO" is included in the **Transfer – OELPA (GF)** file. A script has been added to update all existing Accommodations that saved with a NULL value to "NO."

Assessment Imports

- (PBSIS-33048) Previously, on the **Assessment Import** screen for the **ODDEX File** import, the following Industry Credential codes incorrectly generated an error:
    - CH26
    - CJ35
    - CP34, CP84
    - CQ62, CQ63, CQ64, CQ65, CQ66, CQ67, CQ68, CQ73, CQ77, CQ78, CQ79
    - CR43, CR95

  Now, these codes import correctly, and no error is generated.

Staff/Course Reporting Collection (L)

- (PBSIS-37692) Previously, when "Transfer Student Data" was selected as the **Request Type** and **Transfer-Student Course (GN)** was selected on the **Program Selection** tab, the generated GN records included students who had been removed from a course. Now, removed students are no longer included in the GN records.

© 2025 Frontline Education

- (PBSIS-37984) Previously, when “Transfer Student Data” was selected as the **Request Type** and **Transfer-Student Course (GN)** was selected on the **Program Selection** tab, the generated GN record did not include students who started and dropped a course on the same day. Now, these students are included in the GN records.

Verify EMIS Run Requests

- (PBSIS-32382) Previously, on the **EMIS Run Requests (CHECK_EMIS)** screen, when “S” was selected in the **Reporting Collection** field and the “Not Run” option was selected, the “Student Collection Verify - Discipline (DISCEMIS)” was included in the list of collections that had not been run even when it had been run. Now, when the record collection **Verify – Student Discipline (DISCEMIS)** has been run for Student Reporting Collection (S), it is not included in the list of collections Not Run on the **EMIS Run Requests (CHECK_EMIS)** screen.

VendorLink v25.0.0 Release Notes

This document is an overview of updates in VendorLink v25.0.0.

Included in this release:

- Enhancements
- Resolved Issue

Related VendorLink documentation is available on the *ProgressBook API Portal*.

Enhancements

SIS – AbsenceIntervention by StudentID

- Vendors with the appropriate security role can now post new absence intervention data to SIS or retrieve absence intervention data from SIS.
    - **POST SIS - AbsenceIntervention by StudentId** has been added to enable vendors to post new absence intervention data to SIS.
    - **GET SIS - AbsenceIntervention by StudentId** has been added to enable vendors to retrieve absence intervention data from SIS.

Resolved Issue

GradeBook

- (PBSIS-37203) The time stamp has been removed from Date fields in VendorLink calls to ensure that the time does not affect whether a call is considered within a reporting period window. Previously, the time could affect whether data that was requested for the last date of a reporting period or assignments that were imported from third-party applications on the last date of a reporting period were considered outside of the reporting period. This update is for all Date fields for the following areas:
    - All GB - Class_V2 calls (RequestedDate)
    - All GB - ClassEnrollment_v2 calls (RequestedDate)
    - All GB - AssignmentScore calls - (IssueDate,AssignmentDate)
    - All GB - Assignment calls - (IssuedDate,AssignmentDate)

ProgressBook End-User Requirements

The following tables list the supported software versions for ProgressBook end users. The ProgressBook Suite has been tested successfully using these product and version configurations. Other configurations may function without issue; however, these are the versions actively tested and supported in the ProgressBook Suite.

Operating System	Browser	Adobe Acrobat Reader
Apple		
macOS v12.6 “Monterey”	Safari v16.x	DC
Microsoft		
Windows 10	Google Chrome (latest)[1]	DC

[1] *Due to the rapid release cycle of this browser, the ProgressBook Suite is tested with the latest public released version of Chrome just before the ProgressBook Suite release.*

Additional Configurations Supported by ParentAccess

Operating System	Browser
Apple	
iOS 12	Safari

Pop-up Blockers

ProgressBook displays documents and informational messages in pop-up windows. Pop-up blockers must be disabled in your browser for ProgressBook to function properly. Check your system settings to enable pop-ups for the ProgressBook Suite websites.

Browser Extensions and Add-Ons

Some browser extensions or add-ons for the supported operating systems may cause issues with the ProgressBook Suite. If you feel you have found a specific extension or add-on that causes issues, please enter a ticket so ProgressBook can investigate the issue.
