Attn: Brett Rothfuss

Re: ***Miami Valley Educational Computer Association***

Dear Mr. Rothfuss:

As you are aware, the undersigned is the legal counsel for the Miami Valley Educational Computer Association (MVECA). I am providing this letter to demand that you cease from continuing to make false and derogatory statements to customers of the Miami Valley Computer Association. It has been reported to MVECA that you have contacted MVECA customers and made numerous false accusations concerning MVECA's previous business relationship with your firm.

It has been conveyed to you on previous occasions that MVECA disputes your baseless allegations that MVECA has breached any oral or written contract with Four Fibers. Your failure to meet your company's earlier commitments on projects engaged on behalf of MVECA has resulted in substantial damages to MVECA. MVECA was required to remediate much of Four Fibers' failed work, amounting to about Six Hundred Thousand Dollars ($600,000.00) in damages.

MVECA will not be making any further payments to Four Fibers, so the invoices you continue sending will not be paid. If you believe your position is supported by evidence, I welcome you to pursue legal options. If you proceed with litigation, MVECA will respond with counterclaims against Four Fibers for almost $600,000.00.

Additionally, if you do not cease misrepresenting MVECA, the MVECA Board will pursue a claim for tortious interference of business operations.

Sincerely,

ENNIS BRITTON CO., LPA
